

- Braskem Idesa awarded to Technip (in a joint venture with Odebrecht and ICA Fluor) a contract for the engineering, procurement and construction (EPC) of a petrochemical complex to be built in the Coatzacoalcos/Nanchital region, in the Mexican state of Veracruz. The complex includes a 1,050 KTA ethane cracker, one low density polyethylene and two high density polyethylene units as well as utilities and offsites. The contract follows the FEED for the overall complex awarded in 2011 to Technip. Start-up is planned for 2015.

### Reference Project: Facts

Project Name	Etileno XXI (Cracker – OSBL – ISBL)
Location	Coatzacoalcos, Mexico
Client	Braskem Idesa S.A.P.I.
Engineering	Technip Italy S.p.A.
Contractor	Ethylene XXI Contractors, S.A.P.I. de C.V.

### Reference Project: Figures

Duration	12/2013 – 12/2014
Pipe Diameter	DN 50 – 1050 / NPS 2" – 42"
Scope of Supply	14,600 Pieces 345 tonnes of Standard Pipe Supports 98 tonnes of Special Pipe Supports
